STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco lower than a year ago.

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,215 million pounds as of April 1, 1974. This was a decline of 244 million pounds from the previous April 1. The 1973 crop was in stocks by April 1 with the exception of Maryland and some cigar tobacco.

Domestic flue-cured and burley tobaccos led the decline but almost all types recorded lower inventories. Imported tobaccos showed large gains, especially foreign burley and flue-cured.

Stocks as of April 1, 1974, included 474 million pounds of leaf tobacco under Government loan. This was 275 million less than a year ago. These loan stocks were divided as follows:

flue-cured	298.0	million pounds
burley	164.5	" "
fire-cured	2.0	" "
dark air-cured	7.6	" "
cigar leaf	2.2	" "

Sales have been heavy in the flue-cured and burley cooperatives with only 197 million pounds of flue-cured and 70 million pounds of burley actually uncommitted and available for sale as of April 1.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by grower cooperatives, which are considered dealers for stocks reporting purposes.

1/ Types 11-37 are reported on the basis of packed weight.
2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.
3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reportings in table 3.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government loan stocks are dealers' holdings.

4/ Includes stocks on the island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 2 on page 7.
